

Springtime Necessities

Sometimes the wind blows in Clovis, but it can't blow as much dirt into your house in a day as you can remove in thirty minutes with one of our Torrington Vacuum Cleaners. Rugs, Curtains, Window Sills, Picture Moulding, or any other part of the house is easily accessible. At your convenience we would be very glad to show you.

Sometimes the water pressure is good. Our hose can be cut to any length you wish to water your lawn, and you do not have the waste of buying a hose too long or not long enough. It's moulded hose, too. We would like to show you the durability test it will stand.

Then our new oil stoves!!! Unless you have used this brand, you have an agreeable surprise due you. They are worth more, but sell for less than any other good brand.

It is worth your time to investigate.

FAIRFIELD FACTS

A much appreciated talk was delivered Wednesday morning by Mr. K. K. Rannels at the school house. Mrs. A. B. Sanders and Mr. Black-Fairfield literary society met at the Church Friday night. Some spool

ing was done, and the county agent and Mrs. Durand, club leader, made talks on club work and farm bureau. Mr. Blackenstaff's uncle, Rev. Eager, was visiting him Friday afternoon, and was at the literary society

We had a good crowd at Sunday school last Sunday.

Moye and Union singing classes met at Union church Sunday night. Many songs were sung from the book "Glory Echoes," on which the singing convention at Ranchvale is based.

ADMINISTRATOR'S NOTICE

All persons are notified that the undersigned was appointed administrator of the estate of Edward E. Hickman, deceased, by the Probate Court of Curry County, New Mexico, on the 28th day of March, 1921, and all claims must be legally presented for payment within one year, or same will be forever barred. Lawrence Hickman, Administrator.

The fact that a fellow is married is not proof conclusive that he is the head of a family.

SOUR STOMACH INDIGESTION

Thedford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.—The efficiency of Thedford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver."

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Thedford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Thedford's.

Boys' and Girls' Club Corner

By Mrs. Edna Hume Durand
County Club Leader

An Interesting Curry County Garden.

During 1917 when Hoover asked for the assistance of all red blooded Americans in making gardens count for their share in feeding the family, there were two young ladies in Curry County who decided to do their bit. Gardening was a new undertaking for them and they began their venture by seeking the advice of those who seemed to have had experience. As Miss Ella Grant expressed it, "We asked those who seemed to know and then we tried to follow that which seemed to promise the best results."

They laid off a garden 64 feet square. In this they planted every bit of available space to something that would be of real worth. Potatoes, cucumbers, melons, peas, beets, butterbeans, cabbage and onions were the main crop with radishes, lettuce, etc., for filler in spaces.

The ground allotted to potatoes produced enough to last a family of four throughout the year; the tomatoes gave a surplus of 56 quarts for canning; there was a supply of butter beans for two years, and both cabbage and onions were sent to market.

The method the Misses Grant used to irrigate their garden is worth passing on. They made a tube of an old wagon sheet dipped in linseed oil and attached it to the lead pipe at the well. Then they had planted their garden so that the double rows of vegetables were watered with one irrigation ditch. They followed each watering with a good hoeing and the yield was doubtless due to the intensive "follow-up" that was used in cultivation.

Last year from forty tomato plants that were killed down once they earned 137 quarts besides all that were used fresh and given away. For variety of vegetables Miss Ella Grant says that she finds June Pink Tomato, Early Jersey Wakefield Cabbage, Tall Growing English peas, and Chilian Water Melons make especially good returns.

They transplant their best plants, but tomato plants deep in the ground and do not plant too early. Our season can not be so early in New Mexico as in the old states, but we can have with just the same care just as good gardens.

This year the Misses Grant are putting in their fifth garden on a town lot. They are using the same intelligence and good judgment that they used with their farm garden and they will doubtless have the same success. Let's more of us get to gardening.

Have you wondered just what was the real purpose of Boys' and Girls' Club Work?

One of the state leaders in the east gives this answer to the question.

1. To create an intelligent point of view and a sympathetic attitude toward farming and home-making, through encouraging partnership in certain home enterprises and property ownership.

2. To demonstrate better methods of growing field and truck crops, in raising poultry and livestock, and of improving home-making practices.

3. To give the boys and girls rich experiences along the line of their natural interests, in full cooperation with the home and community, on which source wide-awake teachers can draw material for original language work, for practical problems in arithmetic, for words in spelling that have real meaning to the boys and girls.

4. To create in boys and girls a desire to pursue systematic courses of instruction in agriculture and home economics, as given in high schools, in short courses, and in colleges of agriculture.

5. To socialize farm, home and country life in general through the development of rural leadership, community co-operation, and a good spirit of citizenship.

"To cooperate is to so conduct yourself that other people CAN WORK WITH YOU."

Plan now, definitely, to have that demonstration team at the fall encampment. Select your teams early, work without ceasing and then select the best three to represent you at the try-out.

Some team in New Mexico will go to Denver next year. Why not one from your group?

An exchange says that nine people are killed every hour in American accidents. Boiled down to fractions that means that every five minutes some poor hick is three-fourths dead.

CLARA HAMON WILL STOP IN CLOVIS

On Her Way to Los Angeles to Start Her Work in Portraying Worthy and Profitable Pictures Upon the Screen.

"Dee Turner, president of the Oklahoma Motion Picture Company, who has a two-year contract with Miss Clara to feature her in their production, and Mrs. Turner, are in Clovis. Clara will join Mr. and Mrs. Turner in Clovis going direct to Los Angeles.

Mr. and Mrs. Turner attended Clara's trial, hearing every word of the testimony and case. They saw her publicly confess religion, join the Christian Church and saw her baptized. Are very close to Miss Hamon and know the secrets of her life, the sorrow, sadness and heartaches her regrettable mistake brought her. They know her sincerity and determination to live right, do good in this world and honestly and legitimately make a success in business.

Mr. and Mrs. Turner say that Clara holds the confidence and trust of all who know her well and that the people who have seen fit to criticize and condemn her should first know the facts and the good that she can and will do by portraying moral and worthy lessons on the screen.

Clara made a mistake that your daughter, my daughter or any other mother's daughter might make, while yet in her teens she unwisely lived in sin, exposing her name and happiness which she failed to find. It is true that she had everything that possibly money could buy, but she didn't have happiness because she or no one can live the life she lived and be happy. Still she dearly loved and was true to the man she lived with. He constantly promised her marriage and true love and as a young and unthoughtful girl she believed him.

Clara Hamon is a business woman, her mind is active and broad. She is thoroughly convinced that she can make more money and do more good by appearing and portraying worthy lessons upon the screen. She has sufficient publicity to guarantee success. She has every moral and legal right to make, release and exhibit her worthy pictures. After the motion picture people learned her true intentions they immediately withdrew all opposition and are now encouraging and assisting her.

THE OKLAHOMA MOTION PICTURE CO. is incorporated and doing business under the stringent blue sky laws of Oklahoma where bond is required. In addition to the company's bond the officers are under personal bonds. They are capitalized at \$300,000, are selling their securities at thirty cents a share to raise their working capital. It is not a promotion company, it is a conscientious and sincere producing company that will get results.

The company is having inquiries from exhibitors, exchanges and buyers seeking a contract to either buy or

release their production from some of the biggest people in the business. Clara's pictures will doubtless be shown in practically every city in the universe that means money to the company and the stockholders.

The company will offer a limited number of shares of their common stock at thirty cents a share to the people of Clovis and vicinity up to and including Saturday night at twelve o'clock, April 16, 1921, in amounts of \$12.50 to \$500 to one party. If you want a real opportunity to invest in a business that has merit and will stand the spot light from every angle, this is your chance. They will accept Liberty Bonds or War Saving Stamps, why not make your money make money.

For further particulars call at their temporary office third floor over Clovis News, or Telephone 244 and they will send a representative to your home or place of business, or write P. O. Box 255, Clovis. Their first sale in Clovis was for the limit, \$500 to one person, however, they will accept and appreciate any amount from \$12.50 up.

From the fact Clara Smith Hamon has valuable and national publicity, is still getting national free publicity and is now writing articles for a number of eastern paper syndicates which will give her continued publicity. Mrs. Jennie Sharples, Field Secretary of the Woman's Purity Federation of Chicago will assist Miss Clara in helping scenario and continuity writers to write the stories, the best of actors and actresses will support her in the cast, competent and experienced cameramen, directors and supervisors will make the pictures, the biggest exhibitors will release the pictures, the public will go to see them, the company has every right to believe the following investments will make the following yearly net profits, payable in 90 day dividends.

INVESTMENT	YEARLY PROFITS
\$ 12.50	\$ 70.00
\$ 25.00	\$140.00
\$ 50.00	\$280.00
\$100.00	\$560.00
\$500.00	\$2,800.00

We are not pleading with you to buy our stock, we conscientiously feel that we are doing you a favor in giving you an opportunity to share in these profits and we realize and appreciate the fact that you are doing us a favor in helping us furnish the working capital to make these worthy and profitable pictures. We further feel this stock will be worth over \$1.00 a share within 12 months besides continuing paying appreciated 90 day dividends. All stock in this company shares to its pro rata in all profits for twenty years, the life of the corporation.
